## PROFILE

---

A skilled backend developer with over three years of experience using PHP, Laravel, and both relational and non-relational databases. Willing to collaborate on building solid and user-friendly web applications. I enjoy the challenge of designing scalable solutions and committed to delivering high-quality code within established timelines.

## PROFESSIONAL EXPERIENCE

---

### Backend Developer

Jun 2022 – Apr 2024 | Nigeria

*Cloudde* 📄

- Developed scalable APIs using PHP, Laravel, and MySQL, enabling the learning platform to achieve a 50% reduction in response time and a 75% increase in concurrent user capacity.
- Redesigned the payment system by integrating the Paystack payment gateway to enhance user experience and to increase online transactions by 40% and user satisfaction by 25% using PHP.
- Collaborated with a team of 5 (frontend, design and tester) to deliver backend services aligned with the business objectives. This resulted in a 30% increase in on-time backend service delivery.
- Maintained a 99.9% system uptime, minimizing service interruptions and ensuring a dependable user experience.

### Freelance Developer

Apr 2021 – Jun 2022 | Remote

*Self-Employed*

- Designed a responsive user-friendly website for a charity NGO using WordPress, with a conversion rate of 20% for monthly donations through the site.
- Created an interview management website using PHP, Laravel, and MySQL, providing scheduling and candidate tracking, resulting in a 60% increase in efficiency in managing multiple job applications.
- Collaborated with clients to understand project requirements, proposing and implementing specific backend solutions.
- Integrated various payment gateways (Stripe, Flutterwave, etc.) to enable secure online transactions within freelance projects.
